

Audio collection manual

Create a project

1. Click **Create project**.

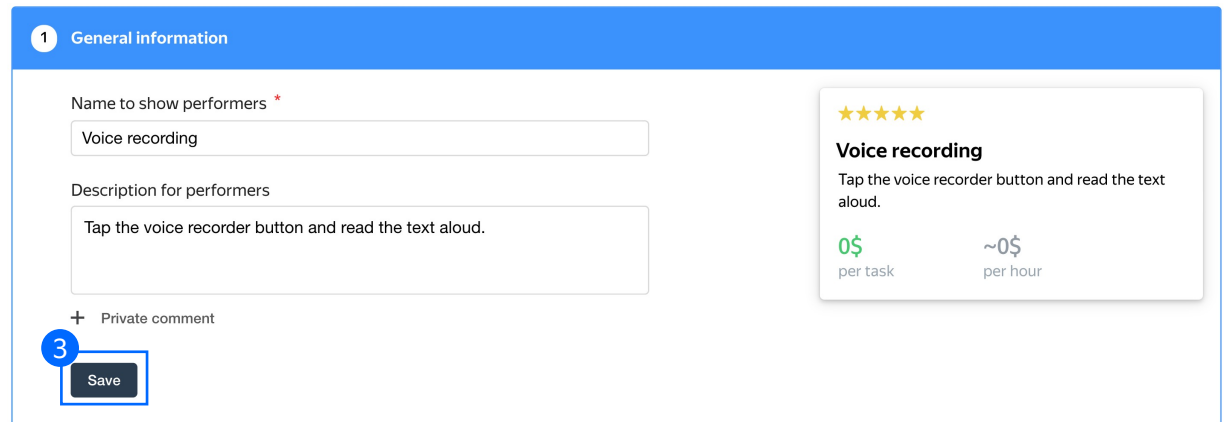

2. Choose the **Blank** template.

3. Enter a clear project name and description. Click **Save**.

Note: The project name and description will be visible to the performers.

4. Update the task interface in the **Template Builder** block.

Read more about the [Template Builder](#) in the Requester's Guide.

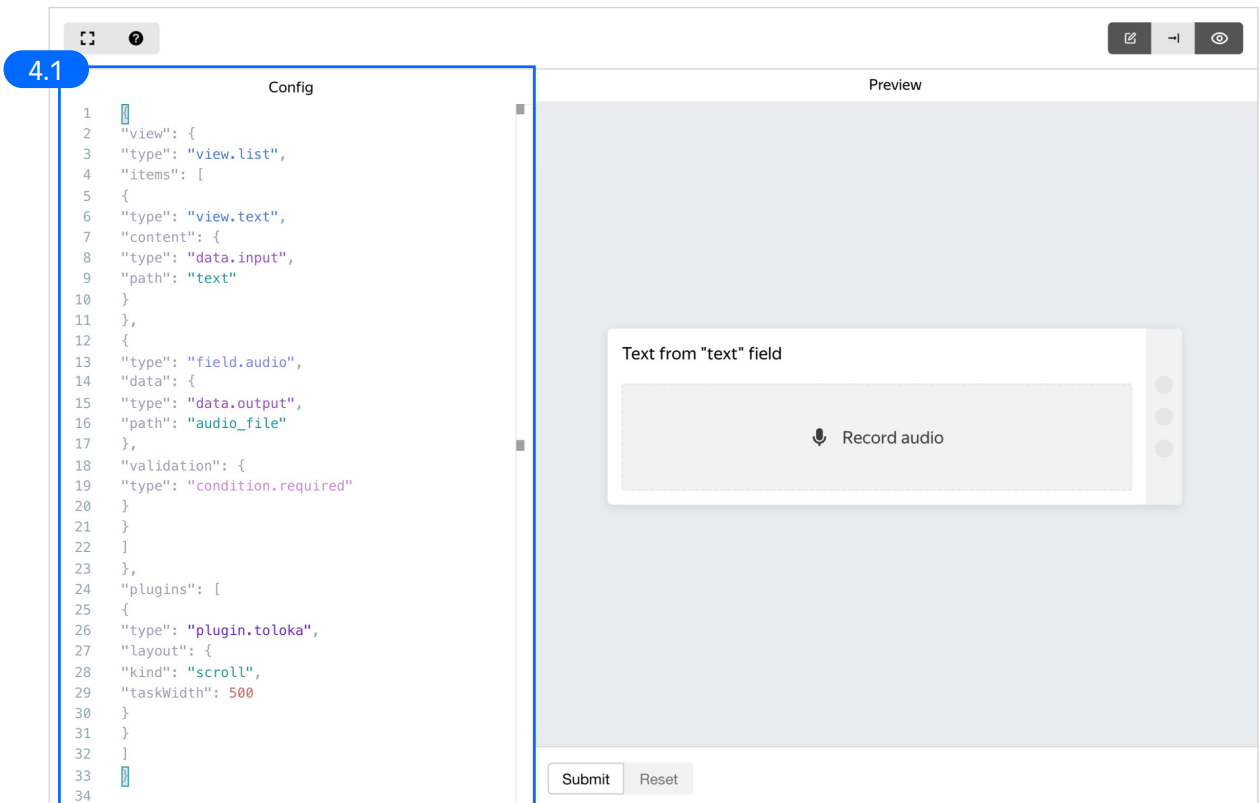

- 4.1. Delete the existing config and paste the code provided at the end of this manual (in the appendix).

In the **Preview section** you can see how the template will work. The task will be performed in two steps. First, tap the voice recorder button and read the text aloud. Second, submit the recorded audio by tapping **Submit**.

There is a validation rule in the template. It checks whether the performer uploaded the task to the template.

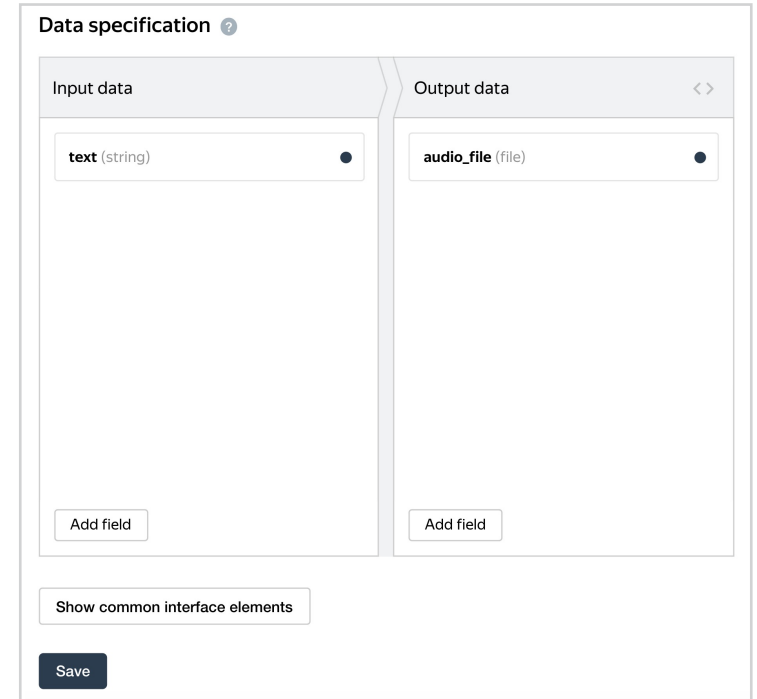

Check the [Interfaces section](#) of our Knowledge Base for more tips on interface design.

4.2. Make sure the specifications look like this:

Note: Specifications are a description of input data that will be used in a project and the output data that will be collected from the performers.

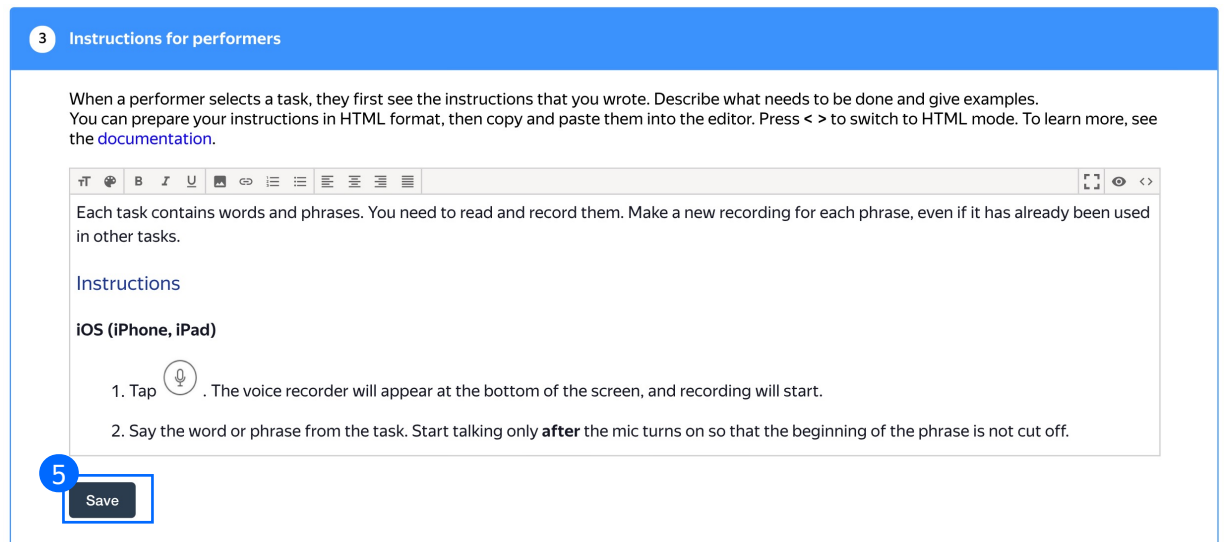

Read more about [input and output data specifications](#) in the Requester's Guide.

5. Write comprehensive instructions. Be sure to describe your task to performers who record words and phrases via different devices (iOS and Android). Mention how long it will take to check completed tasks (max time).

Click **Save**.

Get more tips on designing [instructions](#) in our Knowledge Base.

6. Leave the **Translations** block as default and click **Save**.

4 Translations

i Performers from different countries will understand the purpose of the task better if it's in their own language. Translate the task name, description, and instructions into each language that you want performers to see. Otherwise, the language is inactive. If you want to translate the task interface, you have to create it using Template Builder.

Create the main pool

1. Click **Add a pool**.

A pool is a set of paid tasks grouped into task pages. These tasks are sent out for completion at the same time.

Note: All tasks within a pool have the same settings (price, quality control, etc.)

Voice recording — active

1 Add a pool

Pools can be archived manually or automatically (automatic archiving applies to pools with no activity for 30 days).

Title	Priority	Progress	Status	Started	To be completed
-------	----------	----------	--------	---------	-----------------

To launch a project, you first need to add a pool, set user filters and quality control rules, and upload tasks.

50

2. Give the pool any name you find suitable. You are the only one who will see it.

The description can be either public or private. Choose the option you prefer.

2

POOL NAME (VISIBLE ONLY TO YOU) ? Voice recording

Use project description

PUBLIC DESCRIPTION ? Tap the voice recorder button and read the text aloud.

Add a private description

3. Specify [pool parameters](#):

- 3.1. Select pool type. Choose **Other**.

Read more about [pool types](#) in the Requester's Guide.

POOL TYPE ? Other

Exam

Training

Retry

Other

PRICE IN US DOLLARS ?

FEE ? 0.005

- 3.2. Set the price per task suite (for example, \$0.01).

Audio recording tasks are normally paid as basic tasks (e.g. binary classification) because these tasks do not take much time.

Read more about [pricing principles](#) in our Knowledge Base.

Price per task suite

Each task suite can have one or multiple tasks on the same page. Enter the total price for all tasks in the suite.

3.2

PRICE IN US DOLLARS ? 0.01

FEE ? 0.005

+ Dynamic pricing

3.3. [Filter](#) performers who can access the task. Choose “No” in the **Adult content** block. Click **Add filter** to choose the **Languages** and **Client** options in the list.

3.3

Performers

[Copy settings from...](#)

Filter performers who can access the task.
Toloka has users from different countries, so don't forget to filter by language and region. [Learn more](#)

ADULT CONTENT ? No

Add filter

3.4. Choose **Languages = English** as your first filter. This way, performers who speak English will be invited to complete this task. Then choose **Client = Toloka for mobile**.

3.4

Add filter

PERFORMER PROFILE

Languages = English

AND

CALCULATED DATA

Client = Toloka for mobile

3.5. Create the “recorded_audio” skill that will be assigned to users after they complete the pool tasks. You will use this skill later to assign a skill value to performers who complete your task (see 3.8).

Click **Create a skill**.

Performers [Copy settings from...](#)

TITLE

recorded audio

DESCRIPTION

Public? No

Cancel

3.6

3.7. Set up [Quality control](#): Select non-automatic acceptance with 14 day review period.

Note: Since there is no one true answer to a voice recording task that can be used as ground truth, post-acceptance is the preferable way to check if the recordings provided are acceptable.

Read more about [quality control principles](#) in our Knowledge Base or check out [post-acceptance settings](#) in the Requester's Guide.

Quality control
Add rules to get more accurate responses.
All rules work independently.

3.7 NON-AUTOMATIC ACCEPTANCE ? Yes

REVIEW PERIOD IN DAYS 14 X

CAPTCHA FREQUENCY ? None v

+ Add Quality Control Rule

3.8. Set up the [Submitted responses](#) rule. Use this rule to assign a skill value to performers who complete your task.

A skill is a characteristic of the performer. It is described by a number from 0 to 100. In this task, you record the number of submitted task suites in a skill (1 submitted task suite = 100).

Read more about [performer skills](#) in the Requester's Guide.

SUBMITTED RESPONSES ?

3.8 If submitted task suites v ≥ 1 X +

then assign skill value v recorded_audio X 100 X +

3.9. Overlap. This is the number of users who will complete the same task.

Note: In the case of voice recording tasks, you only need one correct response.

To understand [how this rule works](#), go to the Requester's Guide.

Overlap

Specify how many performers you want to complete each task in the pool.

3.9

OVERLAP ? 1

DYNAMIC OVERLAP ? Off

3.10. Optionally, specify the percentage of top-rated performers in the [Speed / quality balance](#).

Speed/quality balance

Set additional filters to restrict performer access based on their rating in Toloka. This boosts quality but may slow down project completion because there will be fewer performers available to complete tasks. [Learn more...](#)

Top % Online Time

Specify the percentage of top-rated active users who can access tasks in the pool.

8217   8217 

Speed All 90% 80% 70% 60% 50% 40% 30% 20% 10% Quality

All users selected
The task is available to **8217** active users.

3.11. Time given to complete a task suite (for example, 600 seconds).

To understand how much time it should take to complete a task suite, try doing it yourself.

3.11

Parameters

TIME PER TASK SUITE IN SECONDS ? 600

KEEP TASK ORDER ? No

POOL CLOSING DATE ? 2022-07-28

WAITING TIME FOR THE POOL TO CLOSE IN SECONDS ? 0

POOL PRIORITY WITHIN THE PROJECT ? 0

4. Click **Save** to save Pool parameters.

Prepare and upload a file with tasks

1. Prepare a TSV file with tasks as shown in our [example](#).
[Origin](#)
License: CC BY 4.0
2. [Upload pool tasks](#) from this file.

The screenshot shows the 'Voice recording' interface. At the top, there is a play button icon, the title 'Voice recording — closed', and buttons for 'Statistics', 'Download results', and 'Edit'. Below the title, there is a text block: 'Download the sample file, add your task data, and upload the file to the pool. The sample file uses TSV format, which is the same as CSV but using tab as the separator. Make sure you choose UTF-8 encoding when saving the file. Learn more in the guide.' Below this text are three links: 'Template for general tasks.tsv', 'Template for control tasks.tsv', and 'Template for training tasks.tsv'. A blue circle with the number '2' highlights an 'Upload' button. Below the upload button is a progress bar showing '0 % Completed 0'. On the left side, there are four statistics: '0 task pages', '0 training tasks', '0 tasks', and '0 control tasks'.

- 2.1. Select [Set manually](#) in **File upload settings** and specify the number of tasks per page.

In the case of audio recording tasks several tasks per page are preferable, so that performers will complete tasks faster.

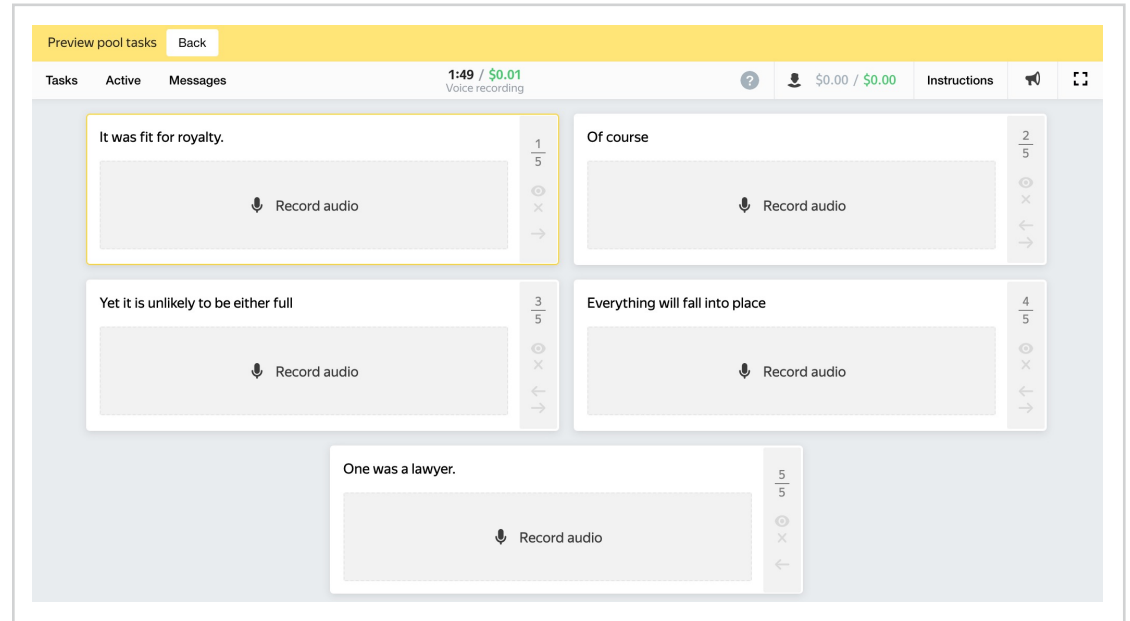

Click **Upload** again.

Note: If you changed the name of the input field, change it in the file as well.

The screenshot shows the 'File upload settings' dialog box. At the top, there is a title 'File upload settings' with a question mark icon. Below the title, there is a section 'Tasks per page' with three options: 'By empty row', 'Set manually', and 'Smart mixing'. The 'Set manually' option is selected. Below the options, there is a text input field for 'Tasks per page' with the value '5'. At the bottom, there is a section 'Sample file for uploading tasks' with a 'Close' button and an 'Upload' button. A blue circle with the number '2.1' highlights the 'Upload' button.

3. Preview the pool.

Note: Remember that the tasks will be completed by actual Tolokers. Double check that everything is correct with your project configuration before you start the pool.

4. Start the pool.

Voice recording — closed

Download the sample file, add your task data, and upload the file to the pool.
The sample file uses TSV format, which is the same as CSV but using tab as the separator.
Make sure you choose UTF-8 encoding when saving the file. [Learn more in the guide.](#)

[Review assignments](#) 20

0 20

Since the main quality control method for this kind of task is post-acceptance, you will need to review the tasks after the pool is completed.

You can check the quality of responses and reject and reevaluate incorrect assignments. Performers will get paid only after their assignment is accepted.

There are two ways to review assignments:

- manually
- in a separate Toloka project

Manual review

1. On the pool page, click **Review Assignments**.

Download the sample file, add your task data, and upload the file to the pool.
The sample file uses TSV format, which is the same as CSV but using tab as the separator.
Make sure you choose UTF-8 encoding when saving the file. [Learn more in the guide.](#)

3. Check whether the task has been completed correctly. Click **Reject** or **Accept**.

Note: You can calculate the number of accepted and rejected assignments per user and turn it into a quality control rule. Those who perform poorly can be banned from your project

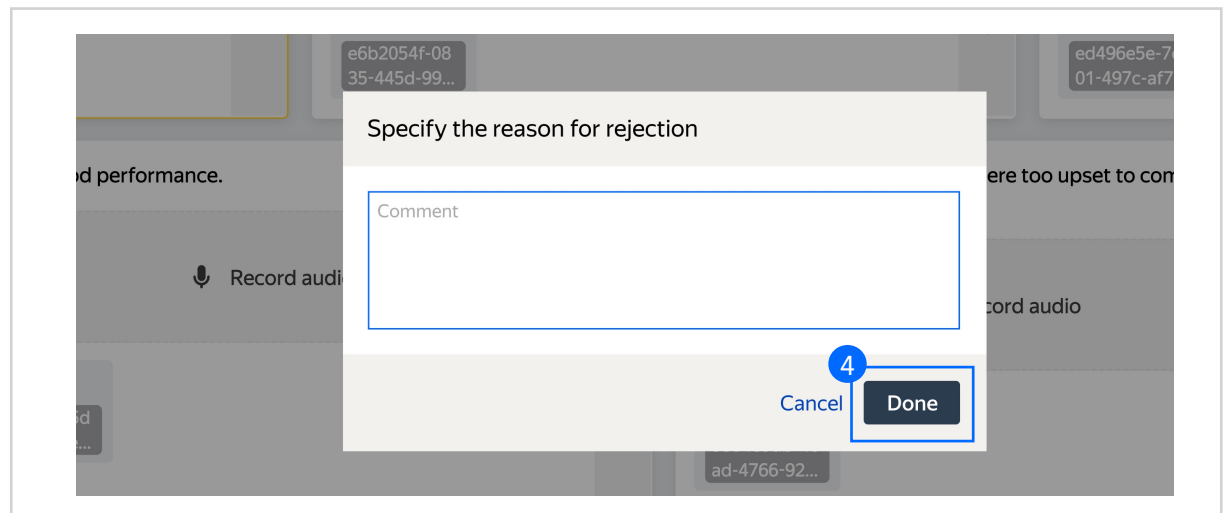

Read [more](#) about this in our Requester's Guide.

4. If you are rejecting the task, write a comment that explains what was wrong. The performer will see this comment.

If a task was rejected, you can send it to other performers.

Read more about [processing rejected assignments](#) in our Requester's Guide.

5. You can pause the review any time by clicking **“Finish review”**.

Make sure to complete the review within the timeframe specified in the pool (see Step 3.7 in Pool Creation).

When the time expires, all unreviewed tasks will be accepted automatically.

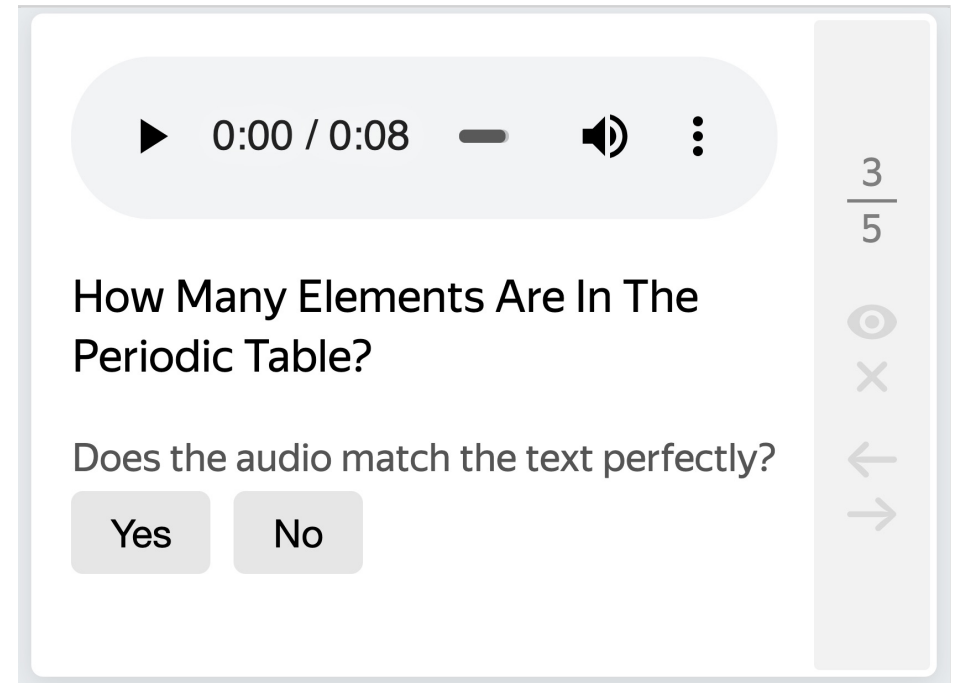

The screenshot displays the Toloka review interface. At the top, there is a breadcrumb trail: Projects > Voice recording > Voice recording > Submitted responses > All assignments. Below this, a header bar shows the date and time: 07/12/2021 / 5:22:08 PM, completion date, and a submit time of 1 min 28 sec. A task ID 6ce2bae574d8655df58287ccc04fdabd is visible, along with an Actions dropdown menu.

The main area contains five review tasks, each with a text prompt, a 'Record audio' button, and a progress indicator (1/5, 2/5, 3/5, 4/5, 5/5). The first task, 'Horses are drawn by ballot.', is highlighted with a yellow border. The bottom-left corner features a blue circle with the number '5' and a 'Finish review' button. At the bottom right, there are 'Next', 'Reject', and 'Accept' buttons.

Automated review

Another way to review tasks is to ask other performers to do that. We recommend this option when you have limited resources for checking tasks yourself.

1. Create an audio classification project based on our [Audio Classification demo](#). Ask the performers whether the recorded texts are correct.

0:00 / 0:08

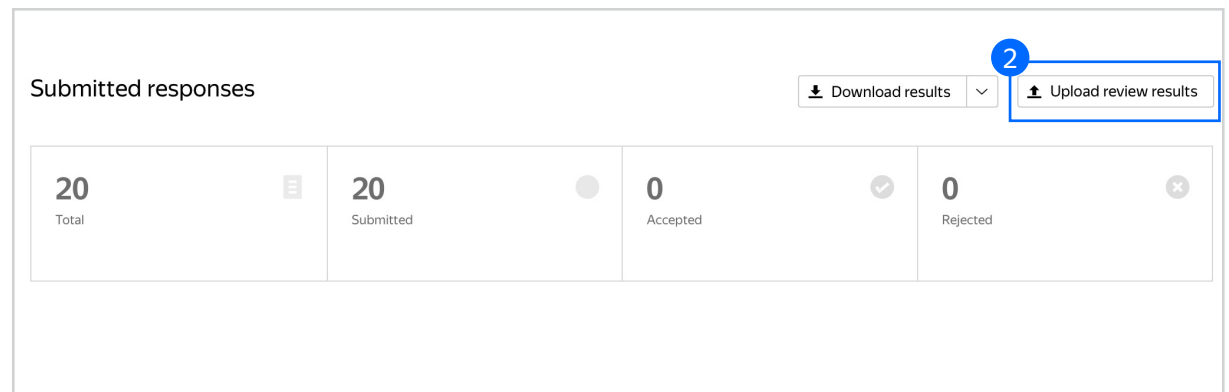

How Many Elements Are In The Periodic Table?

Does the audio match the text perfectly?

Yes No

3/5

2. After the answers are collected, go back to the initial pool and upload review results on the **Review assignments** page. The file should contain the acceptance verdict and a comment. A template can be found in the Download results section.
